

# VRS-CONNECT

“Partner-Shipping Beyond the Rails”™

## Vermont Rail System's Logistics Network

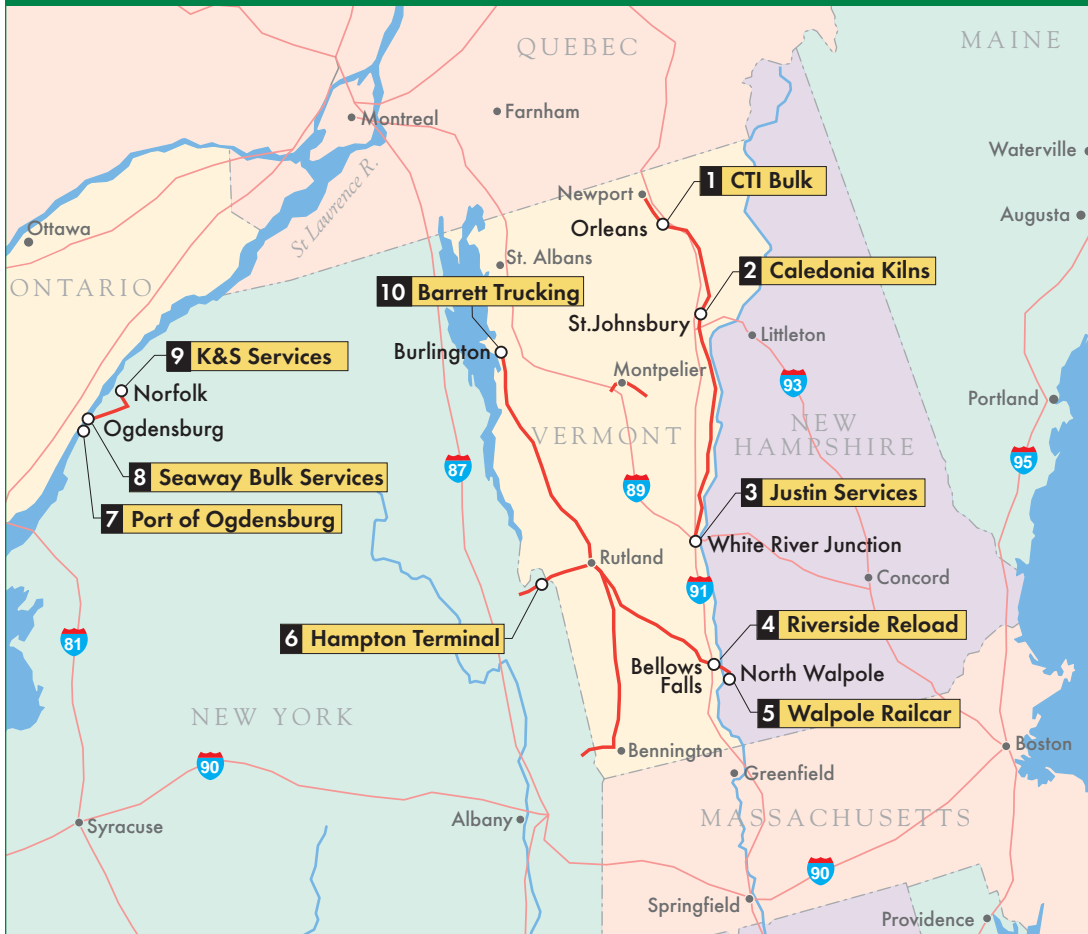

Vermont Rail System is pleased to offer industries throughout the Northeast and Eastern Canada a complete selection of transloading, warehousing, and distribution options from a multimodal network of logistics partners. With *VRS-Connect*, shippers are able to enjoy the cost advantages of long-distance rail coupled with the speed and reliability of over-the-road distribution. Local warehouse and storage-in-transit facilities also

provide the security of knowing that your product is close-at-hand and able to be accessed at any time.

Located at strategic points throughout our system, certified VRS-Connect members will work to keep your supply chain fluid. Commodities that can be handled expertly and efficiently include food-grade, plastics, lumber, steel, agricultural products, chemicals, and general merchandise.

- Certified associates located throughout the VRS System
- Serving Northern New York, New England and Eastern Canada
- Transload, reload, crossdock, storage-in-transit, port, warehouse, trucking, and railcar repair services
- Encompasses all modes of transportation to give you more options: rail, truck, and ship/barge
- All locations feature reliable, frequent VRS train service
- Local logistics providers give shippers personalized service, easy access, and better oversight of shipments
